4	Objective	Which Greek philosopher taught that "divine fire" was the original stuff from which all things originated?	No answer provided	*****	✗
5	Objective	What type of number system is the Yoruba number system?	No answer provided	*****	✗
6	Objective	According to the course, science can be defined as all of the following EXCEPT:	No answer provided	*****	✗
7	Objective	What was the name of the first electronic digital computer built in 1946?	No answer provided	*****	✗
8	Objective	What is the name of the process where a resource is consumed at a rate that would render it non-renewable?	No answer provided	*****	✗
9	Objective	What was the main aim of the voyage of H.M.S. Beagle, on which Charles Darwin served as a naturalist?	No answer provided	*****	✗
10	Objective	Which of the following is NOT one of the specialized cells in man?	No answer provided	*****	✗
11	Objective	What is the name of the process where disintegration or breakdown of rocks produces soil?	No answer provided	*****	✗
12	Subjective	The Islamic scholars borrowed the idea of zero from the _____ mathematicians.	No answer provided	*****	✗

13	Objective	Which of the following is NOT a step in the scientific method?	No answer provided	*****	✗
14	Objective	Which of the following is NOT a specialized cell in man?	No answer provided	*****	✗
15	Objective	Which of the following is NOT a method of acquiring technological advancement?	No answer provided	*****	✗
16	Objective	Which of the following statements about scientific laws is TRUE?	No answer provided	*****	✗
17	Subjective	The fertilized egg cell has _____ chromosomes.	No answer provided	*****	✗
18	Objective	Which of the following is considered the most peculiar number scales in existence according to the mathematician Conant?	No answer provided	*****	✗
19	Objective	The method of thinking in which we move from a general principle or law to particular instances is called:	No answer provided	*****	✗
20	Objective	The method of reasoning emphasized by Francis Bacon was:	No answer provided	*****	✗
21	Subjective	The word 'science' is derived from the Latin word, 'scientia' which means _____.	No answer provided	*****	✗
22	Objective	Who coined the term 'philosophy of science'?	No answer provided	*****	✗
23	Subjective	Science is both the _____ and the product of investigation and research.	No answer provided	*****	✗
24	Objective	Which of the following is NOT a characteristic of science?	No answer provided	*****	✗
25	Objective	What is the name of the method that emphasized observation, experimentation, verification and theory construction?	No answer provided	*****	✗
26	Objective	The first great change in scientific outlook after the renaissance was made by a Polish mathematician and astronomer called _____.	No answer provided	*****	✗
27	Subjective	The first communication satellite called Echo I was launched by the United States in _____.	No answer provided	*****	✗
28	Objective	What is the name of the process where plants use sunlight to convert carbon dioxide and water into glucose?	No answer provided	*****	✗
29	Objective	What does the acronym "BODMAS" stand for in mathematics?	No answer provided	*****	✗
30	Objective	The first human species to use fire was _____.	No answer provided	*****	✗
31	Objective	The science that explores the relationship between life and the environment in which it occurs is called _____.	No answer provided	*****	✗
32	Objective	Which of the following is NOT a method of acquiring technological advancement?	No answer provided	*****	✗
33	Subjective	The cycling time of a resource is the period it takes to replace a particular quantity of such a resource that has been used with an equivalent quantity in the same _____ form.	No answer provided	*****	✗
34	Objective	What is the name of the scientist who developed the laws of inheritance?	No answer provided	*****	✗
35	Objective	Which of the following is NOT a sphere of the earth?	No answer provided	*****	✗
36	Objective	Which of the following is NOT a method of managing non-living resources?	No answer provided	*****	✗

37	Subjective	The cosmos is the world or the universe, regarded as one orderly system with a structure, whose parts are linked together in an _____ manner.	No answer provided	*****	✗
38	Objective	A resource is non-renewable if _____.	No answer provided	*****	✗
39	Objective	The 20th century can be distinguished from previous centuries by all the following EXCEPT:	No answer provided	*****	✗
40	Objective	What is the name of the bone discovered at Ishango that showed evidence of mathematical knowledge?	No answer provided	*****	✗
41	Subjective	Technology is the application of scientific knowledge and research, with the aim of developing products or processes for the _____ of man.	No answer provided	*****	✗
42	Objective	What is the term for the cycling time of a resource that takes hundreds of thousands of years to renew?	No answer provided	*****	✗
43	Objective	Which of the following is NOT a basic type of food needed by man?	No answer provided	*****	✗
44	Objective	What is the relationship between the chromosomes of a father and a mother in determining a child's traits?	No answer provided	*****	✗
45	Objective	What was the name of the experiment that disproved the belief that tomatoes were poisonous?	No answer provided	*****	✗
46	Objective	What type of twins share a single placenta?	No answer provided	*****	✗
47	Subjective	The first significant aeroplane was built in 1903 by two American bicycle makers called Orville and _____ Wright.	No answer provided	*****	✗
48	Objective	What is the scientific name for modern humans?	No answer provided	*****	✗
49	Objective	What is the correct order of human evolution according to the course material?	No answer provided	*****	✗
50	Objective	Science is defined in three main ways as: a body of knowledge, a method for acquiring knowledge or studying and understanding the world, and _____.	No answer provided	*****	✗
51	Subjective	The principle characteristic of scientific thinking is that the sequence of observing, hypothesizing, experimenting, concluding and interpreting is a _____, with new ideas produced at every step.	No answer provided	*****	✗
52	Subjective	The first accurate pendulum clock was built by _____.	No answer provided	*****	✗
53	Objective	Which of the following is NOT a primary need of man according to the course material?	No answer provided	*****	✗
54	Objective	How many chromosomes are there in a human cell?	No answer provided	*****	✗
55	Subjective	The Egyptian priest-scholars established a kind of school system known as the Egyptian _____ System schools.	No answer provided	*****	✗
56	Objective	What is the term for the sum of those measures that make for the avoidance of waste?	No answer provided	*****	✗
57	Subjective	The cosmology is the area of study concerned with the _____ of the universe.	No answer provided	*****	✗
58	Subjective	The Earth is _____ million miles away from the sun.	No answer provided	*****	✗
59	Objective	Which of the following is NOT one of the specialized cells in man?	No answer provided	*****	✗
60	Objective	Which of the following is NOT mentioned as a technique of biotechnology?	No answer provided	*****	✗

61	Objective	Which of the following is NOT one of the P's discussed as adverse effects of technological development?	No answer provided	*****	✗
62	Objective	Which of the following is NOT a method of managing living resources?	No answer provided	*****	✗
63	Objective	According to Charles Darwin's theory of evolution by natural selection, the mechanism that results in evolution is _____.	No answer provided	*****	✗
64	Objective	In ancient Egypt, science was studied as sacred knowledge possessed and disseminated by the _____.	No answer provided	*****	✗
65	Objective	Science is systematic in which of the following ways?	No answer provided	*****	✗
66	Objective	What percentage of twin pregnancies are fraternal twins?	No answer provided	*****	✗
67	Subjective	According to the scientific method, a _____ is an assumed answer to a scientific question.	No answer provided	*****	✗
68	Objective	The period that witnessed a complex change in scientific outlook starting in the late 15th century and reaching its highest point in the 16th and 17th centuries is called _____.	No answer provided	*****	✗
69	Objective	Which scientist used the telescope to view the heavens and thus confirmed the Copernican theory that the sun was at the center of the universe?	No answer provided	*****	✗
70	Subjective	The management of human use of the biosphere so that it may yield the greatest sustainable benefit is called _____.	No answer provided	*****	✗
71	Subjective	Robert Hooke is most remembered for his microscopic discovery of the _____ of plants.	No answer provided	*****	✗
72	Objective	What is the term for the time it takes to replace a particular quantity of a resource that has been used?	No answer provided	*****	✗
73	Objective	The interdependence between man and plants in their air consumption is called _____.	No answer provided	*****	✗
74	Objective	The Yoruba numerals give evidence that the Yoruba have the capacity for _____.	No answer provided	*****	✗
75	Subjective	The first known human species to use fire was _____.	No answer provided	*****	✗
76	Objective	The scientist who discovered an early bird-reptile called archaeopteryx that resembled reptiles and birds was _____.	No answer provided	*****	✗
77	Objective	What is the term for the process where a resource that occurs in an uneconomical formation is upgraded or improved?	No answer provided	*****	✗
78	Objective	Which scientist is credited with disproving the theory of spontaneous generation?	No answer provided	*****	✗
79	Objective	Some of the worst problems of humanity aggravated by science and technology include all of the following EXCEPT:	No answer provided	*****	✗
80	Objective	The Neanderthal people likely believed in life after death based on the discovery of _____.	No answer provided	*****	✗
81	Objective	What was the name of the computer built by Mobison Oliver Udemmadu?	No answer provided	*****	✗
82	Subjective	The theory of evolution by natural selection was proposed by _____ in 1859.	No answer provided	*****	✗
83	Objective	What is another name for empirical sciences?	No answer provided	*****	✗
84	Subjective	The branch of philosophy that deals with human reasoning or thought is called _____.	No answer provided	*****	✗

85	Objective	What was the main contribution of Antoine Laurent Lavoisier to chemistry?	No answer provided	*****	✗
86	Objective	The study of the relationship of signs to the objects to which the signs refer or designate is called _____.	No answer provided	*****	✗
87	Objective	Which of the following scientists is credited with confirming the Heliocentric theory by using a telescope?	No answer provided	*****	✗
88	Subjective	The process of interaction between plants and animals whereby plants take in carbon dioxide and release oxygen while animals use oxygen and release carbon dioxide is called _____.	No answer provided	*****	✗
89	Objective	What was the significance of the Ishango bone discovered at Lake Edward?	No answer provided	*****	✗
90	Subjective	The study of weather and climate is called _____.	No answer provided	*****	✗
91	Objective	Which of the following is NOT a method of acquiring technological advancement?	No answer provided	*****	✗
92	Objective	Which of the following is NOT a primary need of man as discussed in the course?	No answer provided	*****	✗
93	Objective	Who among the following is considered the founder of the atomic theory or the doctrine of matter?	No answer provided	*****	✗
94	Objective	The 19th century is regarded as the beginning of the scientific age because of all the following EXCEPT:	No answer provided	*****	✗
95	Objective	Genetic engineering, which is the hard core of Biotechnology, is defined as _____.	No answer provided	*****	✗
96	Subjective	The cosmos is the world or the universe, regarded as one orderly system with a structure, whose parts are linked together in an _____ manner.	No answer provided	*****	✗
97	Objective	What is the name of the Yoruba celebration that honors the orbit of Sirius B around its own axis?	No answer provided	*****	✗
98	Objective	What is the name of the Nigerian scientist who was the first man to be named a distinguished professor of engineering in American history?	No answer provided	*****	✗
99	Objective	The ozone layer is found in which layer of the atmosphere?	No answer provided	*****	✗
100	Objective	Which of the following scientists discovered cells?	No answer provided	*****	✗
